

SOLUTIONS

DATABASE-DRIVEN PUBLISHING

Embassy Graphics provides cross-media database-driven publishing and page assembly solutions especially suited to customers producing catalogues or directories containing time-sensitive information. Using sophisticated database technology, we provide workflows that can improve page assembly productivity by as much as 85%

SERVICES

- **Design, Implementation and Maintenance**
- **Authorized Software Reseller and Integrator**

FEATURES, ADVANTAGES AND BENEFITS

- **Customizable**
We can customize our software to work within the requirements of your IT infrastructure.
- **Outsourcing Alternatives**
As part of an outsourcing page assembly and prepress agreement, we are capable of interfacing our software with your IT infrastructure and performing page assembly and other prepress functions at our location.
