FEATURES, ADVANTAGES AND BENEFITS

■ **Flex Pricing**

We provide a three-tier pricing structure based on the complexity of the imaging work required.

Plug & Play – Files sent to us in a native PDF format are ready to process and require no special intervention.

RIP Ready – Files sent in a native application software format – such as QuarkXPress, PageMaker or Indesign – are complete and ready to process, requiring minimal intervention.

Full Audit – Incomplete files sent in a native application software format – such as QuarkXPress, PageMaker or Indesign – require file intervention and auditing in order to make them ready for processing.

■ **POD Based Team Approach**

As a valued Embassy Graphics client, you are assigned a dedicated, specialized work team based on the type of product and service you require. Each team includes a customer service representative, a captain, and imaging operators who work as a team to ensure
